

God's Original Clothes Dryer Canticle

Prayer while using God's original solar clothes dryer: give thanks, save \$\$ and energy, reduce pollution.

O most High, almighty, good Lord God, to you belong praise, honor and all blessing! Praised be my Lord with all creatures; and especially our brother the sun...

I give thanks for the sun's renewable energy, which traveled 93 million miles to shine on these clothes; for the ozone layer, which shields all living things from damaging rays; for fossil fuels, stored sunlight from the ancient Earth that produced the electricity to wash these clothes.

Praised be my Lord for our sister water, which is very serviceable and humble and precious and clean...

I give thanks for the abundant clean water with which I washed these clothes, and for all the people whose labor made them.

Praised be my Lord for our brother the wind, and for air and cloud, calms and all weather...

I give thanks for gentle breezes, for the pleasant scent of clean laundry, and for the balance of gases in the atmosphere that gives me life and breath.

Praised be my Lord for our mother the Earth, which sustains us and keeps us, and yields diverse fruits, and flowers of many colors, and grass.

And I give thanks for the amazing work of plants, turning sunlight into food for me and all creatures; for the beauty of flowers and foliage; and for the whole community of life, God's good creation of which I am a part. May I care for these gifts and keep the Earth sustainable. Amen.
